- Spirit Wear on Wednesday, Feb. 10th
- Valentine Party on Friday, Feb. 12th

FYI

- Please refer to the St. Francis website for Catholic Schools Week activities. The students should have an exciting week!
- The students have started studying bones and muscles. They will need to know the major bones in the skeletal system.
- In Math, we have started the basic concepts of division. Please keep working on those division facts!
- Also, we have reminded the students that even though we aren't studying a specific region in Social Studies, they should still be working on the states, capitals, and abbreviations.
