FYI

- Monday, February 8th is our 100th Day of School Celebration! The library is asking students to bring 100 coins on Monday. The coins will be counted and turned into books the student will read & enjoy for years to come. Practice your counting, get rid of heavy change, and help the library! Any coin counts!
- The science test over bones and muscles will be on **Thursday, Feb. 11th**. Students will need to study their notes, vocabulary, and know the 20 main bones.
- The students will be reading books in the science fiction/fantasy genre for the months of February and March.
- Keep working on those basic facts, which will help during long division!
