Roberta Harvey, Principal

Dear St. Francis Families,

Please note the following health requirements for students entering St. Francis School the first time and for those students entering grades K, 4, 7

HEALTH

A school nurse, hired by the Diocesan Schools Office, is available to St. Francis School three one-half days per week. Certificates of immunization are required of every new student before entrance into school. Students are expected to have a physical examination before entrance into kindergarten, grade 4 and grade 7. Examination forms are available on the St. Francis Website. The nurse maintains individual pupil health records as required by the State of Iowa. Vision screening is done for grades 1, 4, and 7 each year, and for students where concern is identified. An audiologist from Heartland AEA conducts hearing screenings for grades kindergarten through five annually. 2007-2008 Nurse Hours: Monday PM, Wednesday PM, and Friday AM.
